" We have been working with Yasemin for several years now and we couldn't be happier. She has been everything from our go-to graphics and website designer for the marketing department to a technical drawing expert for our consulting team and full stack designer for two of our primary programming teams. She's a talented designer, technician, and businesswoman."

"I have had the opportunity to work with Yasemin on multiple web application projects for over 2 years. Throughout that time she has been great to work with. Communicating with her, even overseas, is always easy and enjoyable. Her UI designs and custom graphics (including illustrations and logos) are detailed and beautiful. She is always willing to take feedback and offer guidance as we work to finalize the UI/UX of each screen. In addition to designs she has also worked on front-end development for some of our pages and her quality of work in both areas has been fantastic. I look forward to continuing our work with her, and would highly recommend her for anyone in need of UI/UX design and front-end web development."
